

Dataset Disclaimer and Copyright Notice

Source Attribution

All frames contained in this dataset have been extracted from videos that are publicly available on YouTube. The original video content remains the property of their respective creators and copyright holders.

Copyright Notice

This dataset is provided for research and educational purposes only. The extracted frames are derived from publicly accessible YouTube videos, and all copyright remains with the original content creators. Users of this dataset must respect the intellectual property rights of the original video creators.

Fair Use Statement

The use of extracted frames from YouTube videos may constitute fair use under copyright law for purposes such as research, education, criticism, or commentary. However, fair use is determined on a case-by-case basis and may vary by jurisdiction.

User Responsibilities

By using this dataset, you agree to:

- Use the dataset solely for research, educational, or other legally permissible purposes
- Respect the copyright and intellectual property rights of original content creators
- Comply with YouTube's Terms of Service and Community Guidelines
- Not redistribute or commercialize the dataset without proper authorization
- Remove any content from your use if requested by the original copyright holder

Commercial Use Restriction

This dataset is not intended for commercial use. Any commercial application requires explicit permission from the respective copyright holders of the original video content.

Takedown Policy

If you are a copyright holder and believe that content in this dataset infringes upon your rights, please contact d24151@students.iitmandi.ac.in with:

- Identification of the copyrighted work
- Location of the allegedly infringing material in the dataset
- Your contact information
- A statement of good faith belief that the use is not authorized

We will respond promptly to valid takedown requests and remove infringing content as appropriate.

Academic and Research Use

This dataset is primarily intended for academic research, computer vision studies, machine learning applications, and educational purposes. Proper attribution to original sources is encouraged where feasible.

No Endorsement

The inclusion of content in this dataset does not constitute an endorsement of the original creators or their views by the dataset creator.

Dataset Name: DRONE-UP
